

DECLASSIFIED

REF ID:

UNITED STATES GOVERNMENT

memorandum

DATE: April 20, 1981

REPLY TO
ATTN OF: Howard A. Lane, PAO *HL*SUBJECT: Sullivan Case ~~_____~~

203

TO: Patricia Lasbury

A young man called me this morning with the following information on the Sullivan disappearance. He said a body meeting the description of Sullivan was found about December 29-30 last year near the "Puente de Agua Caliente" in Soyapango. He only saw the body from a distance, but his friends said that it was a tall and well-built white male with a beard. They also said he was a journalist and had been asking questions. Furthermore he had been thrown in the river by members of the security forces. (Both the PH and the GN have installations in the immediate area.) The caller did not inform us sooner because he only recently read the announcement in the paper. He was not able to provide any further information as to the disposal of the body.
